# What is a Product Kit

- A Product Kit is an entitlement, which connects customers to all 4 pillars of information (HW, SW, Documents and Tools) related to a specific product or project.
- Product Kits have levels, which organize materials appropriate for different levels of engagement with Qualcomm according to contract status.
- Each Product Kit is included under specific Product Category/Type.
- Product Kit is the concept/tool set used by Qualcomm for all internal/external product management.

Marketing <i>Public</i>	Starter <i>NDA</i>	Development <i>MEA or Click-through</i>
<i>Marketing documents</i>	★ <i>Starter documents</i>	★ <i>Development documents</i>
<ul style="list-style-type: none"> <li>• Product brief / Slick sheets</li> </ul>	<ul style="list-style-type: none"> <li>• Product overview presentation</li> <li>• HW device specification</li> <li>• HW example schematic</li> <li>• Software overview presentation</li> <li>• HW / SW KPIs</li> </ul>	<ul style="list-style-type: none"> <li>• Chipset device register descriptions</li> <li>• Chipset device packaging information</li> <li>• Circuit board design &amp; layout guides</li> <li>• Circuit board reference schematics</li> <li>• Software architecture descriptions</li> <li>• Software design documents</li> <li>• Software product user guides</li> <li>• Software product release notes</li> <li>• Software tools user guides</li> <li>• Calibration &amp; Tuning Guides</li> </ul>

# Product Kit Upgrade

- Request access to the desired level

The screenshot displays the Qualcomm CreatePoint Product Kits interface. The main navigation bar includes links for Home, Products, Hardware Components, Software Code, Tools, Support, and Buy. The 'Products' link is highlighted with a yellow circle and the number 1. Below the navigation bar, the 'Product Kits' section is visible, with a yellow circle and the number 2 highlighting the 'Requests' tab. The 'Voice & Music: Headset Product Kits' section is also visible, with a yellow circle and the number 3 highlighting the 'Voice & Music' dropdown menu. The 'Headset' category is selected, with a yellow circle and the number 4 highlighting it. The 'Filter List by Processors' and 'Kit Type' dropdowns are visible, with a yellow circle and the number 5 highlighting the 'All' option in the 'Kit Type' dropdown. The 'Product Kit' table lists the 'CSR8670 Bluetooth Headset (Platform)' with a yellow circle and the number 6 highlighting the 'Request Upgrade' button. A modal window titled 'CSR8670 Bluetooth Headset (Platform)' is open, showing the 'Request for Kit Upgrade?' form. The form includes a 'Product Kit Level Requested' dropdown set to 'Starter (STRT)', and fields for 'Name' (James Bond), 'Company' (007007), and 'Email' (jbond@007.com). A yellow circle and the number 6 highlight the 'Request Upgrade' button in the modal.

# CreatePoint with Product Kit Enhancement

---

- Product Kit is a global filter mechanism on the UI.
  - When a Product Kit is selected, only the materials related to that Product Kit are presented.
- Benefits:
  - Well-Organized Document and facilitations
  - Filter Tools dedicated for current Product Kit
  - Hot Item recommendation for current Product Kit
  - More focused Search for current Product Kit

# Product Kit Usage – Favorite/Select

- This is required for the first time;
- The Product Kits in Favorite list can be switched quickly later on.

The screenshot displays the Qualcomm CreatePoint web application. The main navigation bar includes links for Home, Documents, Hardware Components, Software Code, Tools, Support, and Buy Hardware. A search bar is located in the top right corner. The left sidebar features a 'Hot Items' section with a 'Download Selected Document(s)' button and a 'Trending Items' section with a similar button. The main content area is titled 'Choose a Product Kit to Filter CreatePoint' and displays a grid of product categories: All Categories, Camera, Computing, Connectivity, Consumer Electronics, Document Imaging, Infotainment, and Mobile. A 'Product Kit Filter' modal is open, showing a dropdown menu for 'Mobile' and a list of product types: All Product Types, Basic Phone, Cellular Modem, Developer Programs, Headset, Smartphone, Test Device, and Vendor Programs. The 'Product Kits: All Product Types' section is also visible, showing a table of product kits with columns for Kit Info, Product Kit, Kit Level, and Favorites. The table lists various product kits, including Audio/Voice Tuning - Basic (Vendor), Audio/Voice Tuning - Fluence Basic (Vendor), Audio/Voice Tuning - Fluence HD (Vendor), Audio/Voice Tuning - Fluence Pro (Vendor), MDM9206 Linux Test Device (Test), MDM9206 ThreadX Test Device (Test), MDM9607 Linux Cellular Modem (Platform), and MDM9607 Linux Test Device (Test). The 'Favorites' column shows star icons for each kit, with a yellow badge indicating 3 favorites for the 'Audio/Voice Tuning - Fluence HD (Vendor)' kit.
